

Hauraki Primary School Policy Document

Gifted and Talented

Rationale:

This policy is to ensure that Hauraki School provides the opportunities and encouragement for children identified as gifted and talented in line with the Ministry of Education Gifted and Talented policy.

Purpose:

- To ensure early identification of all gifted and talented children.
- To develop the potential of all gifted and talented students.
- To provide a planned and appropriate programme for children with special abilities.

Guidelines:

1. Gifted and talented students are identified on a Register that is updated twice yearly in June and December after consultation with teaching staff. See Appendix 1.
2. Gifted and talented students are those who demonstrate special abilities or intelligences, including academic, cultural, and sporting abilities, as well as possible positive and minus critical, creative, emotional and interpersonal intelligences.
3. The Register guides the gifted and talented programmes that take place.
4. The Principal, in conjunction with the teacher in charge of gifted and talented students, is responsible for coordinating programmes.
5. Students with special abilities are catered for within classroom programmes as well as with specific withdrawal programmes to extend or consolidate their abilities or intelligences.
6. Subject to finances, a part time teacher is employed to assist with the implementation of programmes.
7. Teachers are provided with professional development in recognition of children being gifted and talented.
8. Hauraki School will work alongside outside agencies to best develop potential in children who are gifted and talented.
