

# Hauraki Primary School

## Policy Document

### Special Needs

#### **Rationale:**

Under the Education Act 1989, all children regardless of disability have the right to be enrolled in their local school. This policy is to ensure that every child identified as having special needs has the opportunity to develop their full potential.

#### **Purpose:**

- To ensure early identification of children with special needs.
- To ensure appropriate programmes are provided.
- To establish ongoing consultation with parents and appropriate outside agencies.
- To provide a safe physical and emotional environment for students, this includes students with special needs.

#### **Guidelines:**

1. A delegated teacher SENCO (Special Education Needs Co-ordinator) - has the responsibility of co-ordinating the identification and intervention process as outlined in Appendices 1 & 2.
2. A curriculum and achievement plan assists with identification of tier 1, 2 and 3 students. If deemed necessary programmes are evaluated for adaptation by the SENCO or syndicate leaders and class teachers.
3. The IEP (Individual Education Plan) process allows for regular meetings to review individual children's progress.
4. If this level of support is insufficient parents will be met and appropriate referrals made to outside agencies.
5. A Special Needs Committee consisting of the SENCO, RTLB's, principal or syndicate leaders and teacher aides meets once a term.
6. All staff are aware of and use the identification and intervention process as in Appendices 1 & 2.
7. Professional development for staff will be provided as necessary.
8. Systems and attitudes foster parental participation in the identification of special needs, as well as planning implementation, ongoing monitoring, and evaluation of any programmes.
9. The transition process for children who move from kindergarten to school, class to class, or school to school should be as smooth as possible.
10. Dated records of applications, referrals, reports and any other pertinent correspondence for individual children will be kept by the SENCO.
11. Allocation of funding for special needs purposes will be determined by the SENCO in consultation with the Special Needs Committee.
